FOR IMMEDIATE RELEASE

November 23, 2012

The Statistical Institute of Jamaica (STATIN) is conducting the **Jamaica National Crime Victimization Survey (JNCVS)** on behalf of the Ministry of National Security (MNS). This survey represents a valuable source of information to policy makers. It may be used to understand the level and nature of crime as well as people's perceptions of safety in their communities and their confidence in law enforcement agencies.

A representative from the Statistical Institute of Jamaica (STATIN) will be visiting your household between **November 2012 and January 2013** in relation to this survey. Our representative will show an official identification card and ask for information on this subject from you and other members of your household. STATIN and the Ministry of National Security appreciate your help and thank you for your cooperation.

If you would like further information, you may contact a Statin representative at:

Special Projects Unit, Surveys Division
